A brand aware of responsibility.

Sharing commitment for shared success.

Employing over 1,000 members of staff world-wide, Novus GmbH & Co. KG is part of the Erwin Müller Group which, in addition to Novus, also includes Dahle Bürotechnik, emco bau, emco bad, emco klima and emco electroroller.

Certified for your safety.

The Erwin Müller Group Lingen is committed to the highest standards of quality, safety and environmental protection. They have developed a clear ecological program based on the international eco-management system EN ISO 14001. Particularly in their own production activities, such as electroplating, state-of-the-art engineering ensures environment-friendly efficiency. With few exceptions, our products are developed in-house and manufactured to EN ISO 9001 providing exceptionally high quality and long life. Distinguished by its strong cultural commitment, the Erwin Müller Group promotes young talent as well as well-known international artists.

The basis for good work.

Novus is your specialist in innovative office products. Our products and system solutions bring convenience and efficiency to the global, everyday working environment. Since the company was founded in 1949, the Novus brand has been synonymous with technically advanced products developed through "German engineering". Initially concentrating on producing staplers and hole punches, Novus has constantly extended its product range with a large number of solutions and contemporary products for equipping the modern, ergonomic desk workplace.

The human being as the yardstick.

Drawing on decades of experience, we turn good ideas into high-quality products. As a pioneer of a modern working environment geared to the needs of the people working in it, the Novus brand provides an even balance between productivity and quality of life.

Office products for a relaxed work environment.

Innovative solutions for every need.

Office products from Novus bring personal added value to every user. For us, every product solution begins with the question of how to combine maximum user benefit with practical design. This is the ambition with which Novus develops technically perfected, high-quality products that make even small everyday office jobs more pleasant and leave extra time for important matters.

Everyday performance.

As Germany's brand leader in desktop staplers, we satisfy the wishes of exacting customers today with a wide selection of reliable, modern office products. Because our products are designed for ease of use and work efficiency. Our product solutions range from convenient staplers and perforators right through to powerful block tools, stapling pliers and electrical devices as well as accessory products, such as staples.

Discover how products from Novus can increase your productivity. You will find our passion for perfection in every last detail: organising work more efficiently to boost the success of our customers.

It's time to work successfully. Time for Novus office product solutions.

CLASSIFICATION AND TECHNOLOGY

Qualities

Machines for professional use with added safety and performance for maximum convenience.

Versatile standard machines for everyday desk work in the office or at home.

Practical machines for light-duty jobs and personal use.

The colours

standard:	standard/shining:	shining:	shining / soft touch:
blue	blue/grey	blue	blue
green	red/grey	green	green
red	anthracite/grey	red	red
grey	black/grey	grey	black
black	lime pearl effect	black	light grey
light grey/jet black	sky pearl effect	light grey/jet black	
	plum pearl effect	chrome	

The staplers

Stapling capacity

The maximum number of 80 g/m² sheets of papers that can be stapled. this case, the maximum stapling capacity is 40 sheets.

Anti-blocking system for staples

The spring-mounted magazine permits comfortable, trouble-free stapling without staples jamming. Staples can no longer become stuck in the machine.

Stapling methods

The possible stapling styles from top to bottom: permanent stapling, temporary stapling and nailing.

Top loading system

After tipping up the top of the stapler the staples can be inserted into the magazine.

Flat-clinch stapling:

Stapling process in which the staple ends are bent over and pressed flat against the paper after penetration. This increases binder capacity by 30 %.

Press button loading system

By pressing a button at the rear of the stapler, the staple magazine is released for front loading.

Power on Demand system

The pop-up lever provides a huge amount of power whenever it is needed – reducing stapling effort by over 70%.

Rear loading system

The staples are loaded from the rear of the stapler.

Type of staple

Quantity and type of staple that can be used. In this case, one hundred 24/6 staples with a staple leg length of 6 mm.

Bypass system

Stapling process that bends the staple legs apart, leaving them side by side on the rear of the stack. This way, small quantities of paper can also be fastened using long-leg staples.

Throat depth for paper insertion

Maximum paper insertion depth, in this case 60 mm.

Parallel stapling system

Stapling process in which the staple legs are bent parallel to the longitudinal axis as standard.
With this system, the staple leg length should be selected to suit the volume of paper being stapled.

Technology

Magazine guide

The magazine guide connects the stapler top, which holds the magazine, to the base. The sturdiness, precision as well as weight of the machine will depend on whether the magazine guide is made of plastic or metal.

Staple guide

The staples are held in the magazine. Depending on whether they are supported in a single staple channel or guided on both sides on a rail, a distinction is drawn between single and double staple guidance.

Basic rules for good stapling practice:

Paper stack height $+ 3 \text{ mm} = \text{recommended staple leg length (Note: } 10 \text{ sheets of standard } 80 \text{ g/m}^2 \text{ paper are approx. } 1 \text{ mm thick)}$

CLASSIFICATION AND TECHNOLOGY

The perforators

Punch capacity

The maximum number of 80 g/m 2 sheets of papers that can be punched. this case, the maximum punching capacity is 30 sheets.

Home position

The practical handle lock-down feature saves space when the perforator is not in use.

Punch distance

The hole spacing on standardised perforators is 80 mm, except for variable machines.

Punching position

The adjustable positioning guide for punching all common paper sizes: A4, A5, A6, A4 4-hole punching (3 \times 8).

Hole diameter

Punched holes may be 5.5 mm or 6 mm in diameter, depending on perforator.

The electrical devices

Power

Machines must be connected to the standard 230 V / 50 Hz mains power supply using an adapter provided with the product.

Battery

Machines must be operated on powerful 1.5-volt batteries. In this case, 4 batteries.

Warranty

Warranty cover only if Novus staples are used and the staplers are handled in the proper manner.

FLAT-CLINCH STAPLERS AND PERFORATORS

Office innovations in top form.

The **Collection Sinus from NOVUS** is a visual highlight with outstanding practical value. Featuring perfected Novus technology and a new, ergonomic design, these staplers and perforators leave no margin of doubt. Shining surfaces combined with firmly standing, non-slip base and soft-touch rubber coated finish make office work more pleasant and leave extra time for important matters.

As a desktop stapler with non-slip base, they provide 25% more stapling capacity in return for 40% less effort.

Thanks to their soft-touch surface, the staplers from the Sinus Collection always sit firmly in your hand.

The flat-ended Sinus staplers can also stand upright on the desk.

Flat-clinch technology from Novus creates more space in binders. If necessary, staples can be taken out from paper again.

☆☆ NOVUS S 3 FC Flat-Clinch

The comfortable-to-handle office stapler with soft-touch surface, metal magazine guide, flat-clinch stapling system and movable anvil for pinning and stapling. Includes one box of NOVUS 24/6 DIN SUPER staples. Weight: approx. 242 g.

1731

★★★ NOVUS S 4 FC Flat-Clinch The powerful multifunction stapler from the Sinus Collection is suitable for held-held or desktop use. Featuring perfected flat-clinch technology, press button loading system and movable anvil for pinning and stapling. With a stapling capacity of 50 sheets of 80 g/m² paper, it provides maximum functionality. Includes one box of NOVUS 24/6 DIN SUPER staples. Weight: approx. 270 g.

1662

1732

MOVUS COLLECTION SINUS

The securely engaging paper guide with paper-size indicator in easily legible print.

The new soft rubber perforator base can be opened half-way for emptying and simply re-closed again.

The practical handle hold-down button saves storage space.

A perforator with first-class handling qualities and a hole-punching capacity of up to 20 sheets of standard paper. This perforator cuts an impressive figure with its innovative combination of materials and ergonomic functionality. Weight: approx. 325 g.

All products carry the GS approval

of product safety.

0513

★★★ NOVUS S 230

The ergonomically designed professional perforator with soft rubber base and handle hold-down button saves storage space and provides a hole-punching capacity for 30 sheets of standard paper. The securely engaging paper guide with easily legible paper-size indicator prevents unintentional adjustment. Weight: approx. 350 g.

0480

0514

Small and practical.

Featuring ergonomic styling, dynamic design and high functional quality, the staplers and perforators from the **NOVUS Collection Harmony** really have made a name for themselves. They are the efficient choice for use in the small and home office as well as in professional applications.

☆ NOVUS B 10 Professional

Also available in blister packaging.

020-

1712

☆ NOVUS B 1

The handy stapler for school, domestic and occasional stapling use.

Also available in blister packaging.

Manually operated stapler with plastic magazine guide and single staple guide. Weight: approx. 140 g.

020-

1281

1282

Practically indispensable.

All products carry the GS approval of tested safety.

☆☆ NOVUS B 2

The practical stapler for domestic and home office use. Standard unit with metal magazine guide and single staple guide. Weight: approx. 175 g.

Also available in blister packaging.

020-

☆☆ NOVUS B 3

The attractively priced office stapler, robust and practical on any desk. Metal stapler with plastic casing and single staple guide. Weight: approx. 230 g. Also available in blister packaging.

STAPLERS

Performance counts.

☆☆☆ NOVUS B 4

The compact, high-capacity stapler for everyday use. Metal stapler with plastic casing and double staple guide. Weight: approx. 245 g.

Also available in blister packaging or salespromoting product display (page 69).

020-

☆☆☆ NOVUS B 5

The professional office stapler with high loading capacity for constant use. Metal stapler with plastic casing and double staple guide. Weight: approx. 335 g.

020-

A pleasure to use.

A patented innovation from Novus offers new prestige in your daily office life: The NOVUS B 7A with its fine features and the classic silhouette of the **NOVUS Collection Harmony**. A fingertip's press allows for stapling of up to eight sheets. The spring-mounted magazine avoids jamming of the staples.

All products carry the GS approval of product safety.

Automatic function staples up to 8 sheets.

Standard function staples up to 30 sheets.

Faultless – no more jamming.

The deluxe stapler with automatic function for effortlessly stapling up to 8 sheets of paper at the press of a finger using automatic function and up to 30 sheets using standard function. The only automatic desktop stapler is also equipped with the staple anti-blocking system. Metal stapler with plastic casing, metal magazine guide and double staple guide. Weight: approx. 550 g.

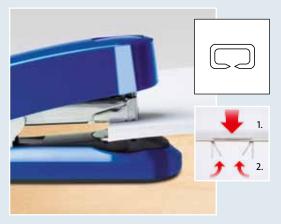

FLAT-CLINCH

More power ...

Higher stapling capacity.

> Flat-clinch technology increases stapling capacity by 25% with up to 40% less effort.

Easier action.

> With the new two-stage stapling action, the staple legs pierce the paper first. The staple ends are then bent over and pressed absolutely flat against the paper.

More space.

 With staple legs resting flat against the paper, flat-clinch stapling cuts filing space by 30%.
 The minimum amount of space taken up by staple ends optimises binder capacity.

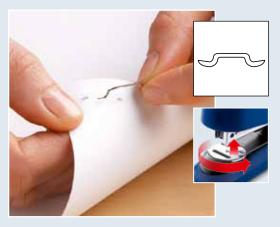

Easy removal.

> Despite flat-clinch stapling, staples are easily removed from paper with a staple remover.

... and more choice!

For temporary fastening: pinning.

Pinning is the ideal option for temporary fastening.
 Advantage: the staple can be removed quickly and easily.
 The movable anvil makes it easy to change between pinning and stapling.

For quick fastening: nailing.

Novus desktop staplers provide an easy third way of attaching notes, photos etc. to surfaces, such as a cork pin board: nailing. With this method, the staple ends are not bent over but sunk vertically into the stapled object.

FLAT-CLINCH STAPLERS

The power staplers.

The first flat-clinch desk staplers in the world (B 4FC, B 5FC) with the performance of a heavy-duty stapler. Will perfectly staple max. 50 sheets of standard 80 g/m² paper with 24/8 SUPER staples.

☆☆ NOVUS B 10 FC Professional

The small flat-clinch stapler for use while travelling. With a 20-sheet stapling capacity and integrated staple remover. With single staple guide and metal magazine guide. Weight: approx. 115 g.

Also available in blister pack.

The attractively priced office stapler featuring flat-clinch technology for powerful stapling even at low pressing force. Stapler with metal magazine guide and single staple guide. Weight: approx. 250 g.

Also available in blister pack.

All products carry the GS approval of product safety.

NOVUS B 4 FCFlat-Clinch

The first desktop stapler in the world to feature flat-clinch technology. The innovation for super-easy stapling with 25% more capacity. Powerful stapler with metal magazine guide and double staple guide. Weight: approx. 245 g.

Also available in blister packaging.

020-

NOVUS B 5 FCFlat-Clinch

First-class flat-clinch stapler. With extra-large loading capacity for constant use. Metal stapler with plastic casing and double staple guide. Weight: approx. 335 g.

020-

FLAT-CLINCH STAPLER AND LONG-ARM STAPLERS

Unique development.

The innovative B 8 FC with Power on Demand system combines the advantages of a desktop and heavy-duty stapler — making it a tool never seen before in this form. In addition to stapling with the tried and proven flat-clinch method, its most impressive feature is the new, unique Power on Demand system. The folding lever reduces stapling effort by over 70%. This makes stapling even large quantities of paper incredibly easy. You will find a helpful video showing how to use the NOVUS B 8 FC Power on Demand by going to www.novus.de.

In addition to conventional Novus flat-clinch stapling, the B 8 FC now gives you the benefit of Power on Demand: Its perfected lever technology takes virtually all the effort out of stapling even large quantities of paper.

The bypass system allows you to staple 2-50 sheets of paper with just one staple model (24/8 SUPER). This prevents staple ends from overlapping.

The NOVUS B 8FC with Power on Demand: The folding lever makes easy work of stapling up to 50 sheets of standard paper saving over 70% of the effort required. Whether 2 or 50 sheets – the integrated bypass system permits the use of only one staple type, the 24/8 SUPER. Changing staples is no longer necessary. Weight: approx. 680 g.

Professional staplers for large paper sizes.

The professional long-arm staplers from Novus are ideal for all of the really big stapling jobs on the desk. The NOVUS B 15 and NOVUS B 17 makes fast, easy work of precision stapling even large-size documents and brochures.

☆☆ NOVUS B 15

The small filing stapler with extra-deep throat. Stapler with metal magazine guide and single staple guide. Weight: approx. 500 g.

The professional and elegant document fastener with strong and firm, silver-anodised aluminium foot and plastic-cased top. Throat depth of up to DIN A2. Precise metal magazine guide and double staple guide. Weight: approx. 800 g.

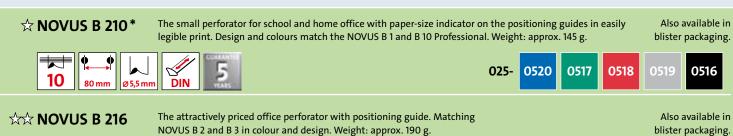

PERFORATORS

025-

Compact all-rounder.

All products carry the GS approval of product safety.

An A 4 paper stack can be punched quickly and effortlessly with four holes by setting the positioning guide to 3×8 . (All perforators with DIN positioning guide.)

The practical lock-down handle saves space when not in use.

The strong office perforator with lock-down handle and DIN paper positioning guide. Metal perforator with plastic casing, matching staplers B4, B5, B7A and B8FC Power on Demand. Weight: approx. 350 g.

Also available in blister packaging or sales-promoting product display (page 69).

COLLECTION EVOLUTION

STAPLERS

A new range that's nothing short of impressive.

The staplers from the new NOVUS Collection Evolution impress with technical highlights, such as the integrated staple remover as well as stunning looks: Two vibrant colours and a combination of shining and matt surfaces make these staplers real eye-catchers. Details, like the pivot button, complement the well-balanced overall design on almost all staplers.

Shining pivot button adds an exquisite touch.

☆ NOVUS E 15

The perfect companion while travelling: Practical, lightweight stapler with plastic top and integrated staple remover in metal. Weight: approx. 90 g.

Also available in blister packaging.

☆ NOVUS E 20

Expressive stapler with non-slip base for firm standing. Plastic top and integrated staple remover in plastic. Weight: approx. 130 g.

Also available in blister packaging.

MOVUS COLLECTION EVOLUTION

Great look, reliable performance.

The attractively priced standard stapler for all major stapling tasks. Easy to operate and absolutely reliable just as you'd expect. With plastic magazine guide and double staple guide. Weight: approx. 700 g.

023-0056

☆☆ NOVUS B 45/3

The value-for-money metal filing stapler with lightweight plastic base. Featuring Novus anti-blocking system, bypass system and express troubleshooter. With plastic magazine guide and double staple guide. Weight: approx. 930 g.

023-0044

★★★ NOVUS B 52/3

The heavy-duty filing stapler featuring a high stapling capacity and a movable anvil. With metal magazine guide and double staple guide. Weight: approx. 1900g.

Movable anvil: Easy to change between parallel system = standard stapling and bypass system. Important: staple leg length should be selected to suit paper stack.

Paper positioning guide: Insertion depth on the block staplers can be varied.

The filing stapler equipped with long throat depth, high stapling capacity and movable anvil. With metal magazine guide and double staple guide. Weight: approx. 3200g.

☆☆ NOVUS B 56/3

The filing stapler with an extremely high stapling capacity of up to 210 sheets of 80 g/m² paper. Featuring anti-blocking system, parallel stapling style and express troubleshooter. With metal magazine guide and double staple guide. Weight: approx. 2100 g.

Quantity matters.

Specialists are expected to excel on precision and performance. Novus perforators are no exception. Comfortable to operate, they are also designed to last.

☆☆ NOVUS B 240

The small filing perforator with lock-down handle and paper positioning guide. Weight: approx. 790 g.

025-0415

☆☆ NOVUS B 260

The attractively priced filing perforator with lock-down handle and paper positioning guide. Weight: approx. 970 g.

MOVUS FILING PERFORATORS

Powerful easy-action block perforator.

With perfect leverage and punching action, the NOVUS B 265 accurately punches up to 65 sheets of paper. The B 270 in modern hi-tech magnesium is extremely light and also an impressive performer. Thanks to optimum power transmission, it perforates up to 70 sheets of standard 80 g/m² paper. These perforators

All products carry the GS approval of product safety.

Practical lock-down handle for space-saving storage when not in use.

The B 270 in hi-tech magnesium has a hole-punching capacity of up to 70 sheets of standard 80 g/m² paper.

The large filing perforator with optimum leverage for effortless punching. With paper positioning guide for DIN hole spacing and handle lock-down button to save space when not in use. Weight: approx. 1250 g.

025-0266

☆☆☆ NOVUS B 270

This high-quality and extremely lightweight filing perforator in hi-tec magnesium will even punch catalogues and thick brochures. A smooth-action perforator that's exceptionally easy to use. Weight: approx. 693 g.

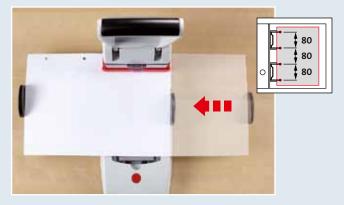

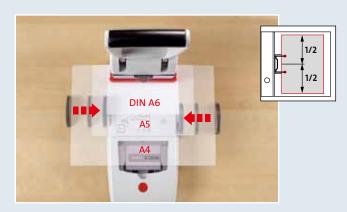

The powerful one for hole-punching convenience.

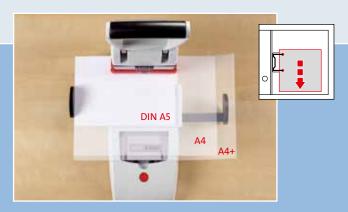

The highlight among the innovations in the new NOVUS B 2200 block perforator is the patented sliding adjustment unit – simple, convenient 4-hole punching every time, without turning the stack of paper. With its optimised lever action, the B 2200 has no problem punching up to 200 sheets of standard paper. Featuring an automatically centring paper guide, A4/A5 locking positions for binder-flush punching, safe handle guard and storage box for the set of accessories, the NOVUS B 2200 provides everything to take the effort out of everyday office work. You will find a helpful video showing how to use the NOVUS B 2200 by going to www.novus.de.

The patented sliding adjustment unit brings maximum convenience to 4-hole punching.

Thanks to the centring function, every sheet of paper in A4 to A6 size is punched with perfectly centred holes.

Binder-flush punching ensures neat and tidy filing, even with special paper sizes.

Integrated viewing window with handle guard for holepunching safety.

MOUTS BLOCK PERFORATOR

Wear parts are easy to change without the need for tools.

Convenient 4-hole punching with sliding adjustment unit.

Handle guard for maximum safety.

Binder-flush punching of all paper sizes with A4/A5 locking mechanism.

Automatically centring paper punching position for straightforward, precision hole punching.

Replacement parts are stored in the perforator.

The B 2200 perforator carries the GS approval of product safety.

Wear parts are easy to change without the need for tools.

Accessory set B 2200: 2 cutting dies and 8 replacement discs (025-0490)

Replacement disc set B 2200: 8 discs (025-0509)

NOVUS B 2200 The strongest Novus block perforator leaves no margin of doubt with its 200-sheet hole-punching capacity and innovative practical highlights. With sliding adjustment unit for flexible 4-hole punching, automatically centring paper guide, paper size locking positions for binder-flush hole punching and handle guard for added safety. Wear parts are easy to change. Weight approx. 3500g. Including 6 additional discs.

Add-on punch dies: Pack of 2 (025-0478)

☆☆☆ NOVUS B 430

The user-friendly multiple-hole perforator, e.g. for time management systems. With four punch dies, each adjustable by spring mechanism, and patented, removable adjustment unit. Punching capacity: approx. 30 sheets of $80g/m^2$ paper. Weight: approx. 2280 g.

SPECIAL PERFORATORS

Innovative technology.

The NOVUS B 430 is the user-friendliest multiple-hole perforator on the market. The patented special feature is the removable adjustment unit: The marking tabs are easily set to any punching format and serve as a punch template on the perforator. The NOVUS B 425 all-metal double four-hole perforator not only punches up to 25 sheets of $80g/m^2$ paper but also sets standards in the design stakes. Two easy and safe-to-operate perforating highlights.

B 425 and B 430 perforators carry the GS approval of product safety.

The all-metal double perforator with lock-down handle and positioning guide for DIN hole spacing. Weight: approx. 1200 g.

Removing staples quickly and easily.

Wherever staples are used, it's sometimes necessary to remove them. Novus has just the right staple removers to do the job.

B80

B 85

NOVUS B 80

The attractively priced staple remover that no drawer should be without. Suitable for all standard staples and the small No. 10 staples. Weight: approx. 33 g.

Also available in blister packaging.

022-0044

NOVUS B 85

The practical standard staple remover with chrome-plated surface. Particularly easy to use and also suitable for smaller staples, such as No. 10, 111 and others. Weight: approx. 75 g.

DISPLAYS

Two-sided 6 in 1 display

Two-sided 6 in 1 display

This practical two-sided 6 in 1 display is ideal for presenting individual collections. Suitable for standing or hanging, two display cubes and three inlays, each featuring two product-specific motifs, provide a well-balanced arrangement and absolute flexibility at the POS.

Display stand: (w x h x d) approx. 32 x 68 x 15 cm. Cube size: (w x h x d) approx. 13.5 x 27 x 13.5 cm

(Supplied without products.)

Product display B 4 / B 225

Product display B 4 / B 225 This practical display is designed for presenting the popular B 4 stapler and B 225 perforator from the Collection Harmony. The product display is equipped with six machines of each type. Dimensions: (w x h x d) approx. 31 x 36 x 21 cm.

TEST DISPLAYS

Test display B 4FC

Test display NOVUS B 8 FC

"Stapling couldn't be easier with the NOVUS B 8 FC" – now you can let customers see for themselves directly at the POS. Featuring wooden base, staples, test blocks, appealing information panel and, of course, the NOVUS B 8 FC, this test display has everything it takes to demonstrate just how easy stapling is.

Size of the information sign: $(w \times h)$ approx. 23 x 37 cm. Size of the wooden base: $(w \times h \times d)$ approx. 22 x 2 x 20 cm.

855-2351

Test display NOVUS B 4FC

Nothing is more convincing than positive, practical experience. The new test display gives you - and your customers - the opportunity to try out the NOVUS B 4FC stapler directly at the POS and sample the impressive advantages of flat-clinch stapling. Complete with wooden base, NOVUS B 4FC, staples, test blocks and information sign, this display is a real sales booster.

Size of the information sign: (w x h) approx. 23 x 37 cm. Size of the wooden base: (w x h x d) approx. 22 x 2 x 20 cm.

SALES PROMOTION

Test displa	ay
NOVUS B	7 A

"The proof of the pudding is in the eating". This display shows the advantages of the patented automatic stapling directly at the point of sale. The information sign provides selling points to promote sales of the automatic stapler B 7A7A.

Size of the information sign: (w x h) approx. 23 x 37 cm. Size of the wooden base: (w x h x d) approx. 22 x 2 x 20 cm.

855-2184

Test display for NOVUS S 4FC

We have also developed a test display specifically for the NOVUS S 4FC. It not only attracts interest but also leaves no margin of doubt, clearly presenting all of the product's advantages and features at a glance.

Now, your customers will find it hard to say no. Size of the information sign: (w x h) approx. 23 x 37 cm.

Size of the wooden base: (w x h x d) approx. 22 x 2 x 20 cm.

855-2317

Test display for NOVUS S 230

Your customers can now discover what makes the NOVUS S 230 so incredibly relaxing to work with by trying out the stylish perforator for themselves on this practical test display. Once they have, it's as good as sold.

Size of the information sign: $(w \times h)$ approx. 23 x 37 cm. Size of the wooden base: $(w \times h \times d)$ approx. 22 x 2 x 20 cm.

SALES PROMOTION

An accomplished display at the point of sale is the basis for good sales figures. Developed by Novus sales professionals, these displays attractively present the range of staplers, perforators and fasteners in clearly organised and well-structured form.

The coloured products in their new blister packagings in particular attract attention and stimulate the urge to buy. We will be pleased to prepare an example product display for you. We can also provide you with targeted support for your sales activities with advertising material in the form of leaflets – e.g. featuring the new Collection Evolution, flimsies showing all of the main product information on individual tools, as well as advertisements and displays etc.

For further details please contact our sales representatives or the Novus company directly.
